THE INDUSTRIAL COMMISSION OF ARIZONA DIVISION OF OCCUPATIONAL SAFETY AND HEALTH

Fiscal Year 2011 Annual Report – 23g Grant

October 1, 2010 through September 30, 2011

Protection of life, health, safety and welfare of Arizona's most valuable assets.

Executive Summary

The ADOSH 23g grant-related functions consist of the following activities: Compliance inspections, discrimination investigations, training classes, adoption of standards and plan changes, and activities associated with the Voluntary Protection Program (VPP).

ADOSH conducted 913 inspections during FY 2011, a 15.9% decrease from the 1085 inspections in FY 2010, and significantly fewer than the 1400 inspections originally projected for the year. (This was mainly due to decreased staffing levels. For much of the fiscal year, ADOSH compliance staffing levels were at approximately 65%). There were 20 accident inspections, a 32.5% decrease from the 32 inspections conducted in FY 2010, as well as 278 complaint inspections, 13% fewer than the 320 complaint inspections conducted in FY 2010.

During fiscal year 2011, the bulk of ADOSH resources were concentrated in the construction industry, which continues to be the major industry with the most serious hazards and employee exposures.

ADOSH has jurisdiction to investigate situations where an employee believes he has suffered adverse action due to engaging in activity protected by the ADOSH Act (usually, filing a complaint regarding workplace safety with ADOSH or with the employer). ADOSH conducted 78 discrimination investigations during FY 2011, a 14.3% decrease from the 91 investigations in FY 2010.

ADOSH had mixed results with respect to the various performance goals. We were able to meet some activities projected for various goals, but not others, again due to staffing levels. One area of note is our goal to increase membership in the VPP program. Since the inception of this goal in 2007, ADOSH has welcomed 17 employers into this program, three shy of our goal of 20. We anticipate reaching that goal in FY 2012.

STANDARDS/PLAN CHANGES

The Arizona Division of Occupational Safety & Health took the action indicated regarding the following state plan changes during the year:

First Quarter:

- CPL 02-00-149: Severe Violator Enforcement Program (SVEP) adopted 10-21-2010
- CPL 02-10-07: Injury and Illness Recordkeeping NEP adopted 11-16-2010

Second Quarter:

• Changes to acetylene standards (1910.102) adopted 1-12-2011

Third Quarter:

- CPL 02-01-050: Enforcement Guidelines for Personnel Protective Equipment (PPE) adopted 5/15/11
- CPL 03-11-01: Microwave Popcorn Processing Plants National Emphasis Program (NEP) adopted 5/15/2011
- STD 03-11-002: Compliance Guidance for Residential Construction adopted 6/16/2011
- Standard adoption: 29 CFR 1910 & 1926 Hexavalent Chromium Employee Notification of Test Results adopted 6/13/2011
- Standard adoption: 29 CFR 1926 Steel Erection non mandatory regulation changes adopted 6/13/2011
- Standard adoption: 29 CFR 1926 CC 1400 Cranes and Derricks adopted 6/13/2011

Fourth Quarter:

- CPL 03-00-013 Primary Metals Industries National Emphasis Program (NEP) adopted 7/5/2011
- CPL 02-00-151 29 CFR 1910 Subpart T- Commercial Diving Operations Guidance adopted 8/8/2011

GOAL 1.1

5-Year Performance Goal:

Reduce the injury and illness rate by 10% in the framing construction industry.(SIC 1751)

Annual Performance Goal:

Reduce the injury and illness rate by 2% in the framing construction industry.

BASELINE: BLS calendar year 2006 Total Arizona Case Rate for framing construction = N/A

2007 rate = 13.3 2008 rate = 11.1 2009 rate = 8.9 2010 rate = 9.2

GOAL ACTIVITY:

This goal focuses on injuries and illnesses within the framing construction industry. This industry has historically seen high injury rates, as is typical in construction. Since 2007, the overall industry case rate in Arizona has dropped by 30.8 percent

For FY 2011, ADOSH's goal was to conduct 20 inspections in this industry, with at least 50 hazards identified. Five training classes were also projected. ADOSH conducted 20 inspections and identified 52 hazards. With respect to training, we had a total of 89 companies from the construction industry in various classes.

While the overall case rate climbed slightly from 2009 to 2010, as mentioned above, the rate is still significantly below where it was when ADOSH first stated focusing resources in this industry.

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Yearly Totals
Compliance Inspections	5	1	5	9	20
Hazards identified	15	0	15	22	52
% insp. w/ hazards	100	0	80	66.7	
Const'n companies attending classes	15	12	32	30	89

GOAL 1.2

5-Year Performance Goal:

Reduce by 10% the injury and illness rate in the structural steel and precast concrete industry.(SIC 1791)

Annual Performance Goal:

Reduce by 2% the injury and illness rate in the structural steel and precast concrete industry.

Baseline: BLS calendar year 2006 Total Arizona Case Rate for the structural steel and precast concrete industry = 15.0

2007 rate = 9.3

2008 rate = 11.0

2009 rate = 11.6

2010 rate = 11.8

GOAL ACTIVITY:

This goal focuses on injuries and illnesses within the structural steel and precast concrete construction industry. This industry has historically seen high injury rates, as is typical in construction. From 2006 to 2007, the overall industry case rate in Arizona has dropped by 21%. Unfortunately, since 2007, the rate has increased by 26.8%.

For FY 2011, ADOSH's goal was to conduct 10 inspections in this industry, with at least 30 hazards identified. Five training classes were also projected. ADOSH conducted 26 inspections and identified 56 hazards. With respect to training, we had a total of 89 companies from the construction industry in various classes.

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Yearly Totals
Compliance Inspections	3	8	4	11	26
Hazards identified	8	21	11	16	56
% insp. w/ hazards	67	75	100	36.4	
Const'n companies attending classes	15	12	32	30	89

GOAL 1.3

5-Year Performance Goal:

Reduce by 10% the injury and illness rate in the wood products manufacturing industry, NAICS 321 .(SIC 2441-2449, 2493-2499, and 2511-2512)

Annual Performance Goal:

Reduce by 2% the injury and illness rate in the wood products manufacturing industry..

Baseline: BLS calendar year 2006 Total Arizona Case Rate for the wood products mfg industry = 9.2

2007 rate = 9.4

2008 rate = 7.2

2009 rate = 7.4

2010 rate = 7.0

GOAL ACTIVITY:

This goal focuses on injuries and illnesses within the wood products manufacturing industry. This industry has historically seen one of the higher injury rates in manufacturing. Since 2006, the overall industry case rate in Arizona has dropped by 23.9 percent.

For FY 2011, ADOSH's goal was to conduct 10 inspections in this industry, with at least 50 hazards identified. Five training classes were also projected. ADOSH conducted 12 inspections and identified 127 hazards. With respect to training, we had a total of 7 companies from this industry in various classes. ADOSH met this goal.

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Yearly Totals
Compliance Inspections	4	2	2	4	12
Hazards identified	54	8	7	58	127
% insp. w/ hazards	50	100	50	75	
Companies attending classes	3	0	2	2	7

Goal 1.4

5-Year Performance Goal:

Reduce by 10% the injury and illness rate in the architectural and structural metals manufacturing industry, NAICS 3323. (SIC 3441-3449)

Annual Performance Goal:

Reduce by 2% the injury and illness rate in the architectural and structural metals manufacturing industry.

Baseline: BLS calendar year 2006 Total Arizona Case Rate for the architectural and structural metals manufacturing industry = 8.0

2007 rate = 8.7

2008 rate = 9.0

2009 rate = 3.2 (Note: BLS did not record a rate specific to this industry in 2009. The rate

for the parent industry (Fabricated Metal Products) was recorded and is

used here. The 2008 rate for Fabricated Metal Products was 5.8.)

2010 rate = 6.8

GOAL ACTIVITY:

This goal focuses on injuries and illnesses within the architectural and structural metals manufacturing industry. This industry has historically seen one of the higher injury rates in manufacturing. Since 2006, the overall industry case rate in Arizona has dropped by 15 percent.

For FY 2011, ADOSH's goal was to conduct 50 inspections in this industry, with at least 200 hazards identified. 20 training classes were also projected. ADOSH conducted 10 inspections and identified 98 hazards. With respect to training, we had a total of five companies from the industry in various classes.

Due to staffing resources, ADOSH was unable to achieve the activity level goals with respect to this industry. However, the overall case rate is still on a downward trend.

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Yearly Totals
Compliance Inspections	3	5	1	1	10
Hazards identified	46	28	15	9	98
% insp. w/ hazards	66.7	80	100	100	
Companies attending classes	5	0	0	0	5

GOAL 1.7

5-Year Performance Goal:

Approve at least 20 new workplaces for inclusion in the Arizona Voluntary Protection Program (VPP).

Annual Performance Goal:

Approve at least 4 new workplaces for inclusion in the VPP.

Baseline: Number of workplaces with VPP status as of 9/30/07 = 19

Number of workplaces approved in FY 2008 = 5 Number of workplaces approved in FY 2009 = 4 Number of workplaces approved in FY 2010 = 6 Number of workplaces approved in FY 2011 = 2 Number of workplaces approved in FY 2012 =

The ADOSH VPP program remains strong. Since the inception of this goal, ADOSH has approved 17 workplaces into this program. Although ADOSH did not meet it's annual performance goal (approving only two of the four workplaces projected), we are well on track to meeting the broader, five-year performance goal of 20 new workplaces.

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Yearly Totals
